Paid Jesse C. Ivy, legal fees,	24 00
Balance, Dec. 31, 1894,	10,979 21
	\$11,013 21

At the last annual town meeting, the town voted to instruct the selectmen to petition the Massachusetts Highway Commission to make Washington Street a State highway.

In pursuance of the above instructions, and in compliance with the demands of the Board of Highway Commissioners, we have caused a survey to be made of the street, which is nearly if not quite completed, and when put in proper form will be presented to the Commission for their acceptance.

HIRAM WILLIAMS,
GEO. COPELAND,
HENRY W. HEATH,
Selectmen of Easton.

ANNUAL TOWN MEETING.

MONDAY, March 5, 1894.

1. Lorenzo B. Crockett was chosen to preside at the meeting.

2. Reports of Selectmen, Assessors, Overseers of Poor, Town Clerk, Treasurer, Road Commissioners, School Committee and Superintendent of Schools were accepted.

3. It was voted to limit the number of Constables to five. Town officers were elected in the usual manner.

4. The following sums of money were voted to be raised, and appropriated: —

Support of poor, seven thousand dollars.

Road and bridge repairs, five thousand dollars.

Road tools, four hundred dollars.

Incidental expenses, eighteen hundred dollars.

Discount on taxes, eighteen hundred dollars.

Compensation of town officers, eighteen hundred dollars.

Support of schools, twelve thousand dollars.

Schoolhouse repairs, one thousand dollars.

Text-books, six hundred dollars.

Conveyance of pupils, one thousand dollars.

New school furniture, four hundred dollars.

Superintendent of schools, twelve hundred dollars.

5. *Voted*, To raise and appropriate one thousand dollars for conveying pupils, outside of No. 7, to the High School.

6. *Voted*, To appropriate one hundred and fifty dollars to be expended by Post 52, G. A. R., in decorating soldier's graves.

7. *Voted*, To leave to the Road Commissioners the matter of building a crossing at the junction of Pond and Andrews Streets, and fifty dollars was appropriated therefor.

8. The Treasurer was authorized to borrow fifteen thousand dollars in anticipation of taxes.

9. The list of jurors was accepted, after excusing James H. Rankin and Edgar F. Belcher, and adding the names of J. H. Hurst and T. W. Driscoll.

10. The road as laid out from Central Street to the old road near the house occupied by John Beatty was accepted, conditional upon its approval by the Road Commissioners when completed; the same to be known as Water Street. It was also voted to discontinue the south-westerly portion of said old road from the new street to Central Street.

11. The street as laid out from Williams Street to Seaver Street was accepted and five hundred dollars appropriated to build the same. That portion running north and south is to be known as Seaver Street; that running east and west as Reynolds Street.

14. *Voted*, To appropriate one hundred dollars to remunerate the city of Brockton for the aid of its Fire Department at the burning of E. J. W. Morse Company's factory.

15. The Selectmen were instructed to petition the Massachusetts Highway Commission to make Washington Street a State road.

16. The Selectmen were instructed to interfere to prevent injury to shade trees set out by the town, from telegraph and telephone wires.

Voted, That the result of the State Election of the present year be printed in the next Annual Report.

The following preamble and resolution was adopted : —
 “Whereas the people of Stoughton having under consideration the construction of a new road in said Stoughton, connecting with the town of Easton, and believing that the people of Easton would be greatly benefited by the construction of said road, by shortening the distance and making a safer road to travel, —

Resolved, That the people of Easton do pledge themselves to widen, straighten and rebuild the road leading from the house of Ziba Randall to Stoughton line near what is known as the Foster place, to connect with the same whenever said proposed road in Stoughton shall be built.”

In answer to the question, “Shall licenses be granted for the sale of intoxicating liquors in this town?” the vote was, No, 296 ; Yes, 241.

Voted, To dismiss the meeting.

At a legal town meeting holden on the nineteenth day of July, 1894, at half past seven o'clock, P. M., —

1. John O. Dean was chosen to preside at the meeting.

2. *Voted*, To build a schoolhouse in Unionville, and to raise and appropriate the sum of three thousand dollars to

build the same ; also the sum of one thousand dollars for heating and ventilating said schoolhouse, and the sum of five hundred dollars for furnishing the same.

Elijah Smith and Walter C. King were chosen to act with the School Committee as a Building Committee.

3. *Voted*, To appropriate the sum of five hundred dollars to purchase additional land, and for grading purposes for the aforesaid schoolhouse.

The Town Treasurer was authorized to borrow five thousand dollars for the foregoing purposes.

4. Oliver Ames, 2d, was chosen to have the custody and care of the fund held by the town of Easton in trust, under the will of the late Oliver Ames.

5. The sum of one thousand dollars was appropriated for the purpose of widening and repairing Elm Street, from Washington Street easterly to the house of John B. Marshall.

The Town Treasurer was authorized to borrow the sum of \$1,000 for that purpose.

At a legal meeting holden on the fourteenth day of August, 1894, at half past seven o'clock P. M., —

1. Lorenzo B. Crockett was chosen to preside at the meeting.

2. *Voted* unanimously, That this meeting be adjourned until the Annual March Meeting in 1895.

At a legal meeting holden on the twenty-eighth day of August, 1894, at half past seven o'clock P. M., —

1. Lorenzo B. Crockett was chosen to preside at the meeting.

2. It was *voted*, That a schoolhouse be built in District No. 8 according to plans and specifications now in possession of the School Committee and exhibited at this meeting.

3 and 4. It was *voted*, That the sum of forty-five hundred dollars be appropriated for the new schoolhouse, to include the expense of heating, furnishing and ventilating the same, and of additional land.

5. *Voted*, That the School Committee dispose of the old school building at public auction.

6. The Town Treasurer was authorized to borrow the sum of ten thousand dollars on the credit of the town.

The meeting was then dismissed.

At the Annual State Election of State and County Officers and Representatives, on the sixth day of November, 1894, the number of ballots cast in Easton was seven hundred and forty-one; and they were for the following persons : —

GEO. G. WITHINGTON,

Town Treasurer.

AUDITORS' REPORT.

EASTON, MASS., Dec. 31, 1894.

The subscribers, auditors of the accounts of the town of Easton for the year ending Dec. 31, 1894, have examined the accounts of Geo. G. Withington, its Treasurer, and have found the same correctly cast and properly vouched, and the Treasurer has verified to us that the cash balance of \$5,239.69 due from him to the town is in his possession.

GEO. W. KENNEDY, }
WILLIAM J. TWOHIG, } *Auditors.*

Interest on \$565.49 for one year, at $4\frac{1}{2}\%$,	25 45
Jan. 1, 1895, balance on hand in Insurance Fund,	\$590 94

The coupons on the above bonds were not paid in 1894. Insurance expires, Oct. 14, 1896, \$35,000; Feb. 16, 1897, \$5,000.

Respectfully submitted,

W. H. AMES,
Treasurer.

TOWN WARRANT.

BRISTOL, SS.

*To either of the Constables in the town of Easton, in the
County of Bristol,*

GREETING :

In the name of the Commonwealth of Massachusetts you are directed to notify the inhabitants of the town of Easton, qualified to vote in elections and town affairs, to meet in the Town Hall in said Easton, on the fourth day of March next, at one o'clock in the afternoon, then and there to act on the following articles :—

1st. To choose a moderator to preside at said meeting.

2d. To see if the town will accept the reports of the Selectmen, Assessors, Overseers of the Poor, Treasurer, Road Commissioners, School Committee, and Superintendent of Schools.

3d. To choose all necessary town officers for the ensuing year, and to see if the town will vote to grant licenses for the sale of intoxicating liquors. The vote must be by separate ballot, and must be Yes or No, in answer to the question, " Shall license be granted for the sale of intoxicating liquors in this town ? "

4th. To raise such sums of money as may be necessary to defray the town charges for the ensuing year, and make appropriations for the same.

5th. To see if the town will raise and appropriate money to pay for conveying such scholars residing outside

of District No. 7 as may wish to attend High School at North Easton.

6th. To see if the town will raise and appropriate the sum of one hundred and fifty dollars, to be expended under the direction of Post No. 52, G. A. R., for Memorial Day services.

7th. To see if the town will authorize the Treasurer to borrow money in anticipation of taxes.

8th. To see if the town will accept the list of jurors as presented by the Selectmen.

9th. To see what action the town will take in regard to the enlargement of the schoolhouse at Eastondale, and to raise and appropriate money therefor.

ROAD COMMISSIONERS' REPORT.

The weather during the past year has been such as to permit of a very long time in which work on the roads could be done at good advantage. We have employed a smaller force of laborers than usual, and have thus kept your teams employed for a long time, and have done a large amount of work. But the large loss in the income from the Ames bequest does not give us the financial showing which we desire.

Respectfully submitted,

JOHN J. McCARTHY.

THOMAS F. LADD.

JOHN O. DEAN.

REPORT OF THE SCHOOL COMMITTEE.

TO THE CITIZENS OF EASTON :—

We submit the following report for the year 1894. We call especial attention to the detailed report of the Superintendent.

STATISTICS.

Number of children in town, May 1, 1894, between five and fifteen years of age	865
Number of different scholars of all ages en- rolled on the school registers in 1894	1,050
Number over fifteen years of age	93
Number under five years of age	65
Average amount per scholar appropriated by the towns of the State for 1893	\$14 42
Average amount per scholar appropriated by the towns of the State for 1894	14 87
The amount per scholar appropriated in 1894 was \$13.87. No. 7 had 459 scholars, and the part of the appropri- ation for No. 7 was 459 times \$13.87, ...	\$6,366 33
Add three fourths of the income of the bequest	859 57
Total that must be expended in No. 7, ...	\$7,225 90

The expenses of No. 7 were as follows :—

Teachers' salaries	\$8,171 00
Instruction in music	260 00
Supplies	340 00
Fuel	300 00
Care	600 00
Total expense of No. 7	\$9,671 00

These figures (in which is included the expense of the High School) are given to show that we have complied with that condition of the Oliver Ames bequest which requires the expenditure of three fourths of its income at No. 7.

APPROPRIATIONS.

The amount made necessary by the conditions of the Oliver Ames Fund to appropriate for the support of schools in 1895 is \$12,862.55. As explained in the Superintendent's report, the income from this fund has decreased from \$4,000 to \$1,146.10, the income of last year. We shall not, however, call for the appropriation of much more than the amount named above, and therefore recommend the sum of \$13,000 for the support of schools. A careful reading of what the Superintendent has to say on the subject of the transportation of High School scholars shows the necessity of a larger appropriation for that object, and we recommend the sum of \$1,600. We ask for the usual amount for repairs, viz., \$1,000; for text-books, \$700, and for furniture, \$300.

For the details regarding the construction of the new school-house in Unionville we would also refer to the report of the Superintendent, and we call for an additional

appropriation of \$1,100 for that work, over \$300 of this being necessary to lower the grade of the site, as strongly recommended by citizens of good judgment.

As to the moving of the building in No. 7, and the progress on the new cellar there, we would refer to the special committee having that work in charge.

L. S. DRAKE,
Chairman.

W. L. CHAFFIN,
Secretary.

ROBERT T. CONROY.

SUPERINTENDENT'S REPORT.

TO THE SCHOOL COMMITTEE OF EASTON :

Gentlemen, — The Superintendent of the Public Schools would submit his report for the year 1894.

It is the ninth in the series of annual reports by the Superintendent of the Public Schools of this town.

THE CORPS OF TEACHERS.

In fifteen of our twenty schools there have been no changes during the year in the teaching force. The following is the record of appointments, transfers, and resignations : —

APPOINTMENTS.

CARRIE A. KEITH, Principal Union Grammar School.
ALICE M. HOWARD, Principal Unionville School.
FANNIE A. BIRNIE, Assistant Eastondale School.
ABBIE A. SEYSER, Assistant Eastondale School.

TRANSFERS.

FANNIE A. BIRNIE, from Eastondale to Bay Street.
GRACE A. PACKARD, from Bay Street to School No. 3.

RESIGNATIONS.

MERLE A. DRAKE, Principal Union Grammar School.
MARION B. HURLBUT, Principal Unionville School.
MARY L. GEDDES, School No. 3.

Misses Hurlbut and Geddes were well-trained, efficient teachers ; the former was in the service of the town for

one year; the latter, for two years. Their resignations were regretfully accepted.

Mr. Drake was for three years the successful principal of the Union Grammar School. By his resignation the town lost the services of one of its best teachers, — a scholar of rare ability and accomplishments, a superior disciplinarian, who secured the good-will alike of children and parents, a citizen whose fine character exerted a beneficial influence in the community.

ATTENDANCE.

The prevalence of scarlet fever during the fall term lowered the average membership and attendance. An inspection of the school registers shows that the number of marks for tardiness and dismissal is smaller than for the preceding year, and there have been fewer cases of truancy.

The following table gives the summary of perfect attendance for the past four years. It is gratifying to note a steady increase in the number of pupils who are perfect in attendance for the whole year.

	1891.	1892.	1893.	1894.
Number of pupils punctual and present every half day for three terms	3	14	17	28
Number of pupils punctual and present every half day for two terms	22	59	66	62
Number of pupils punctual and present every half day for one term	95	155	177	145
Totals	120	228	260	235

Chapter 198 of the Acts of 1885 directs that "the School Committee shall not allow any pupil to attend the public schools while any member of the household to

which such pupil belongs is sick of small-pox, diphtheria, or scarlet fever, or during a period of two weeks after the death, recovery, or removal of such sick person; and any pupil coming from such household shall be required to present to the teachers of the school the pupil desires to attend a certificate from the attending physician or Board of Health, of the facts necessary to entitle him to admission in accordance with the above regulation."

During the school year, the chairman of the Board of Selectmen, acting as the health officer, furnished the Superintendent of Schools with memoranda of every reported case of contagious disease.

Under the direction of a physician the school buildings in which cases of scarlet fever occurred have been thoroughly fumigated.

SCHOOL PROPERTY.

The appropriation for repairs and new furniture was carefully expended. Black-boards were repaired in all of the schools. New slate boards were placed in several recitation rooms. Slate costs more but it needs no repairing and is, therefore, cheaper in the end. A new coal stove was put in at Bay Street. New desks and seats were placed in the upper recitation room at No. 7 and in the school-room at No. 3. Flag-staffs were repaired and painted, and ordinary repairs made upon several buildings. Extensive repairs were made at Nos. 2 and 3. The houses were painted, walls kalsomined, and chimneys rebuilt. This year it will be necessary to paint the Union and Center School-houses, to place floor registers or radiators in the main school-rooms at South Easton, to purchase a coal stove for school No. 9, to replace several old black-boards with slate, and to rebuild the well at

Easton Furnace. In the schools of that village, where over eighty pupils are enrolled, the daily supply of water is brought in buckets from houses in the neighborhood. This arrangement causes much annoyance to both the neighbors and the teachers.

SCHOOL ACCOMMODATIONS.

When the new buildings are completed in Unionville and North Easton, we shall have good accommodations in every district except Eastondale, where the school is over-crowded. This school has two teachers, and to accomplish the best results there should be two rooms, one for primary, the other for grammar grades. The building at Eastondale is the largest and best of our smaller school-houses, and has been repaired recently and refurnished with modern desks and seats. It ought to be kept as it is for the higher classes.

To provide room for the primary scholars, the Superintendent strongly recommends that the smaller building in Unionville be moved to the school lot in Eastondale. This building has a good frame in sound condition, and ceased to be serviceable in Unionville only because it was too small. It will easily accommodate forty pupils. This building can be moved to Eastondale, placed on good foundation walls, and furnished with all needful equipments for a primary school at a cost not to exceed four hundred dollars.

This plan, which has been submitted informally to the people of Eastondale, has their warm approval. If it should be adopted by the town, we shall have a graded system of schools in every one of the five villages of Easton.

THE COST OF OUR SCHOOLS.

For the first time in many years, our account shows a deficit. This is due entirely to the shrinkage in the income of the Oliver Ames Fund. In 1890, and for several years previous to that time, this fund yielded \$4,000. In 1891, owing to a re-investment in the latter part of that year, the income was \$3,732.58. In 1892, it fell to \$3,175.80. In 1893, it was further reduced to \$2,729.75. In 1894, we have received from this fund only \$1,146.10.

Our schools are economically managed. There is an unexpended balance on every special appropriation. For general school purposes we have expended upwards of a hundred dollars less than last year.

Our general appropriation was the same for 1894 as for 1893. Had we received in 1894 the same amount from the Oliver Ames Fund that we received in 1893, we should have an unexpended balance of \$141.20. For the year ending April 30, 1894, the largest average amount per pupil appropriated for general school purposes by any town in Massachusetts was \$42.11; the smallest, \$3.00. Of the 352 towns, Nahant stood first in this respect and Gay Head last. In this list of 352 towns, Easton appears as No. 125, with an average of \$15.42. Of the 20 towns in Bristol County, North Attleboro expended the largest amount per pupil, \$18.23, and Seekonk the smallest, \$8.32. In this county list of 20 towns Easton stood No. 8.

The following table includes every town in the State whose population falls between four and five thousand: —

TOWNS.	Population.	Valuation.	Number of pupils between 5 and 15.	Av. per pupil app. for gen. school purposes.
Milton	4,278	\$14,846,700	802	\$30.68
Hingham	4,564	3,932,248	604	21.66
Barnstable	4,023	3,717,690	607	21.64
Amherst	4,512	3,188,531	574	20.51
Concord	4,427	3,810,028	700	19.80
Winchester	4,861	5,750,299	1,012	19.56
Bridgewater	4,249	2,363,571	493	18.80
Braintree	4,848	4,424,225	853	18.74
Abington	4,249	2,253,860	687	18.63
Great Barrington	4,612	3,203,358	669	18.38
Canton	4,538	3,885,832	755	17.37
Northbridge	4,603	2,611,341	776	16.98
Reading	4,088	3,206,466	692	15.89
Easthampton	4,395	2,465,030	786	15.88
Hopkinton	4,088	2,197,257	578	15.58
Easton	4,493	4,534,601	824	15.42
Hudson	4,670	2,758,849	845	14.90
South Hadley	4,261	1,956,452	751	14.50
Methuen	4,814	3,396,345	936	14.31
Whitman	4,441	3,560,225	904	13.96
Williamstown	4,221	2,514,376	663	13.51
Warren	4,681	2,458,835	933	13.50
Orange	4,568	2,732,850	872	12.45
Provincetown	4,642	2,124,970	846	12.41
Rockport	4,087	2,614,559	693	11.90
Franklin	4,831	2,727,925	1,021	11.56
Stoughton	4,852	2,604,250	885	11.55
Millbury	4,428	2,282,077	914	10.97
Ipswich	4,439	2,750,961	867	10.54
Winchendon	4,390	2,215,722	777	8.64

Attention is called to two facts: *First*, that in this list of 30 towns Easton stands No. 16. *Second*, that the valuation of Easton is exceeded by only two of the towns, Milton and Winchester.

THE NEW SCHOOL-HOUSE IN UNIONVILLE.

It is confidently expected that this building will be ready for occupancy at the commencement of the spring term.

As soon as it is completed the final payments must be made to the contractor, amounting, all told, to \$3,997.15. The cost of architect's plans and supervision will amount to \$175. Two extras have been allowed: one of \$25 for change of grade; another of \$33 for an additional flue in the south stack. The cost of insurance for three years was \$60, and \$50 was paid for moving the old building. These sums make a total of \$4,340.15. As the appropriation was \$4,500, this will leave a balance of \$159.85, which will be barely sufficient to furnish the building. The contract for heating calls for \$832, and about \$300 will be needed for grading the lot and building the retaining walls. It will be necessary, therefore, to ask the town for an additional appropriation of \$1,100.

THE HIGH SCHOOL.

During the fall term the High School had one hundred and two pupils, forty-nine of whom were young men. In proportion to the size of the town, this is the largest school of its grade in the State. There are three courses of study: A full classical or college preparatory course covering a period of four years; a semi-classical or Latin scientific course of the same length which prepares for technical schools and for those colleges which do not require Greek, and a shorter English business course of three years, designed for those pupils whose scholastic training will end with the completion of their work in this school. In the graduating class there are nine pupils, and in the entering class of the present academic year there are thirty-six.

The success and popularity of the Easton High School are chiefly owing to three things:—

First. Its organization upon broad and permanent lines.

Second. The unfailing regularity and earnestness of the teachers in their work.

Third. The wise liberality of the town in providing free transportation for those pupils who live outside of District No. 7.

TRANSPORTATION OF HIGH SCHOOL SCHOLARS.

On account of a decided increase in the charge for school tickets issued by the New York, New Haven & Hartford R. R., amounting to more than double the price charged by the Old Colony Corporation, the appropriation of one thousand dollars is insufficient. In order not to exceed the appropriation, the pupils who live remote from the railroad stations have been obliged to walk long distances during the fall months, the coaches being withdrawn between April and December. In the judgment of the Superintendent the coaches should be employed during the whole of the school year. Pupils who live on the line of the railroad receive free transportation all the year through, and why should not those who live in parts of the town inaccessible to the cars receive free transportation by coaches? To treat all fairly, which means simply to treat all alike, would cost a few hundred dollars more; but it is decidedly the right thing to do.

THE TRAINING SCHOOL.

Under our present system, a graduate from either of the longer courses in the High School may enter the Training School, and for a year receive, free of cost, a systematic course of instruction in the Theory and Practice of Teaching, with actual experience in the classes from the Kindergarten to the upper grammar grades.

Last June, diplomas of graduation were awarded to Gertrude E. Canegaly, Mabel M. Leach, Myra L. Morse. These young ladies have all taught as substitutes during the fall term, and, judging by their quality of work, they compare favorably with graduates of the Normal schools. The new class formed in September has four graduates of our High School, Katherine J. Lyons, Maria E. Murphy, Maude I. Packard, and Gertrude A. Smith. In addition to these there are two special students, admitted by vote of the School Committee, Letitia Bird, who had assisted in one of our primary schools, and Ella French, a graduate of the Dorchester High School, whose parents formerly lived here and who is now living with relatives in North Easton.

These pupil-teachers observe and assist in the various rooms below the High School, including the Kindergarten, and every day give a lesson for observation and criticism. They are assigned outside work in the line of educational literature, and are required to give oral and written abstracts of what they have read and learned. Their labors are appreciated and commended by the Principal of the Training School and by the different teachers to whom they render valuable assistance. In concluding his report, the Superintendent would testify to the high character of the public schools of Easton. They were made excellent by the teachers, superintendent, committees, and citizens of former times, and they steadily advance from year to year. Your attention is invited to the appendix, which contains special reports, courses of study, financial statements, and tabulated statistics.

EDWARD B. MAGLATHLIN,
Superintendent of Schools.

EASTON, MASS., Feb. 5, 1895.

APPENDIX.

REPORT OF SUPERVISOR OF MUSIC.

MR. E. B. MAGLATHLIN :

Dear Sir,—This is the twelfth year of my connection with the schools of Easton. While the work in music is not all that could be wished, still there is much which is highly creditable. The aim has been to so guide the children in the practice of sounds and rhythm that the study, becoming a delight, will awaken within them a desire for the most ennobling music.

The first, second, and third years are devoted to the study of the intervals found in the major scale, and to the forms of two, three, and four part measures. With the fourth year commences the study of two-part singing and of the more difficult intervals of the major scale. Two-part singing is continued through the fifth year with the practice of two, three, and four sounds to the beat, and also of sounds one and one half beats long. Three-part singing is taken up during the sixth, seventh, eighth, and ninth years, also chromatic and minor scales. All the graded schools are doing the above work. In the ungraded schools the work is not so uniform, but has to be adapted to the age and capacity of the pupils.

All singing after the third year should be by note, and I believe it is best for the pupils when learning songs not to be assisted by the organ nor by the voice of the teacher.

The greatest care should be exercised in selecting songs for the school-room, both in regard to words and music. Songs unsuited to the capacity and voice of the pupils are a positive hindrance, and can never arouse the exertion necessary for a healthy growth in the study of music. All the schools are well supplied with good music readers, but a few of the first series of charts are nearly worn out and new ones will soon be needed.

Respectfully submitted,

J. E. SHEPARDSON.

RULES AND REGULATIONS

OF THE

PUBLIC SCHOOLS OF EASTON, MASS.

I. IN RELATION TO THE TEACHERS.

SECTION 1. Teachers shall, in all cases, be elected by the School Committee.

SECT. 2. Whenever a teacher, in any school, is temporarily absent, the Superintendent may appoint a substitute, to be selected from the list of candidates approved by the Committee.

SECT. 3. In June, annually, the Superintendent shall recommend the amount of salary to be paid to each teacher, and the Committee shall then fix the salaries for the year, commencing on the first day of September next ensuing.

SECT. 4. Teachers shall be present fifteen minutes before the school session begins, and shall observe a strict punctuality in the opening and closing of their schools.

SECT. 5. Whenever teachers are unable to attend to their duties they shall immediately notify the Superintendent.

SECT. 6. The discipline to be maintained in the schools shall be such as is exercised by a kind and thoughtful parent. Teachers may detain pupils for a reasonable time after the close of a school session for the purpose of discipline, or to make up for failures in recitation. All cases of corporal punishment shall be recorded and submitted in a monthly report to the Superintendent.

SECT. 7. For continued and stubborn resistance to authority a teacher may suspend a scholar, and shall report the case to the Superintendent, at the same time giving notice to the parent or guardian.

SECT. 8. For every case of absence, tardiness, or dismissal from school before the close of a session, a written excuse may be required of the parent or guardian.

SECT. 9. In any building where there is more than one teacher, or more than one school, the principal teacher, or the teacher of the highest grade, shall have special charge of the building and

grounds, and shall have supervision of the conduct of pupils on the stairs, in the corridors, and in the school yard.

II. IN RELATION TO THE PUPILS.

SECTION 1. No child under five years of age shall be admitted to the public schools except by permission of the Superintendent.

SECT. 2. No new classes will be formed in the lowest grade, and no children will be admitted to that grade, except at the commencement of the school term.

SECT. 3. Children whose parents or guardians are non-residents shall be admitted to the schools only by the consent of the Committee.

SECT. 4. Whenever a pupil defaces any part of the school premises, or injures any school property, he shall be liable for all damages.

III. THE SCHOOL CALENDAR.

SECTION 1. The Scholastic Year shall commence on the third Monday in September. The Fall Term shall continue fourteen weeks, with a Thanksgiving recess from Wednesday noon till Monday noon. The Winter Term shall commence on the first Tuesday in January, and continue thirteen weeks. The Spring Term shall commence on the second Monday in April, and continue twelve weeks.

SECT. 2. In addition to the legal holidays, the schools may be closed on one day of the Agricultural Fair at Brockton, and on two days of each year for the purpose of allowing teachers to visit schools, or to attend educational meetings.

The High School may be closed during the session of the Annual March Meeting. No school shall be suspended on any other day, except on some sudden emergency, without permission of the Committee.

SECT. 3. The morning session shall begin not later than fifteen minutes past nine o'clock, and shall continue two and one half hours, exclusive of recesses.

The afternoon session shall begin not later than thirty minutes past one o'clock, and shall continue two and one half hours, exclusive of recesses.

SECT. 4. The time of opening and closing the sessions in any school shall not be changed during a term without the approval of the Superintendent.

EASTON HIGH SCHOOL.

ENGLISH AND CLASSICAL COURSES OF INSTRUCTION FOR GRADUATION IN THREE OR FOUR YEARS.

FIRST YEAR.

Fall Term.—1. Book-keeping or Latin; 2. Algebra; 3. Zoölogy.

Winter Term.—1. Book-keeping or Latin; 2. Algebra; 3. First half, Zoölogy; Second half, Physiology.

Spring Term.—1. Commercial Law or Latin; 2. Algebra; 3. Physiology.

Latin pupils may substitute Business Course for No. 3.

SECOND YEAR.

Fall Term.—1. Rhetoric or Latin; 2. Geometry; 3. American Literature.

Winter Term.—1. Rhetoric or Latin; 2. Geometry; 3. First half, American Literature; Second half, Shakespeare.

Spring Term.—1. Botany or Latin; 2. Geometry; 3. Shakespeare.

Latin pupils may pursue Rhetoric or Botany as a fourth study.

THIRD YEAR.

Fall Term.—1. Physics; 2. General History; 3. French or Latin.

Winter Term.—1. Physics; 2. First half, General History; Second half, English Literature; 3. French or Latin.

Spring Term.—1. Chemistry; 2. English Literature; 3. French or Latin.

Pupils who elect to graduate in three years may substitute for No. 3 of the third year studies selected from Nos. 1 and 2 of the fourth year.

FOURTH YEAR.

Fall Term. — 1. Chemistry; 2. Geology; 3. French or Advanced Latin.

Winter Term. — 1. Astronomy; 2. Political Economy; 3. French or Advanced Latin.

Spring Term. — 1. Trigonometry; 2. Civil Government; 3. French or Advanced Latin.

Latin pupils may substitute a Review in place of No. 1 of the Spring Term.

Pupils wishing to fit for college may substitute Greek in place of English equivalents.

In each course, regular lessons are given throughout the year in Rhetoricals, Music, Drawing, and Physical Culture.

Appropriate diplomas will be awarded to those who complete either three or four years of study. In order to receive a diploma for either course, a pupil must have obtained promotion regularly each year, and have maintained, throughout the whole period, a commendable rank in scholarship and conduct.

Only graduates of the longer course will be eligible for membership in the Normal Training Class.

MOTTO.

"Labor wins Glory."

EASTON HIGH SCHOOL GRADUATING EXERCISES OF THE CLASS OF 1894.

ON THURSDAY, JUNE 28, 1894, AT 7.45 P. M.

PROGRAM.

1. PIANO SOLO, "Angel's Dream" . . . Katherine J. Lyons
2. ORATION, "Municipal Suffrage for Women," George E. Hamilton
3. RECITATION, "The Keepers of the Light," Syretha M. Dailey
4. RECITATION, "Molly" . . . Gertrude A. Smith
5. CLASS HISTORY . . . Harry H. Dodge
6. RECITATION, "Trying the Rose Act" . . Maria E. Murphy
7. FLAG DRILL.
8. RECITATION, "The Grave by the Sorrowful Sea," Sara E. Curran
9. RECITATION, "The Minuet" . . . Lena C. Ghen
10. PIANO DUET, "Love at Sight" . . Misses Lincoln and Packard
11. ORATION, "The Spoils System" . . . George Howard
12. RECITATION, "The Bell of Zanora" . . Katherine J. Lyons
13. CLASS PROPHECY . . . Mabelle R. Lincoln
14. ESSAY, WITH VALEDICTORY, "Labor wins Glory,"
Maude I. Packard
15. PRESENTATION OF DIPLOMAS . . . Dr. T. H. McCarthy

GRADUATES.

CHRISTINA BIRNIE.

SARA ELIZABETH CURRAN.

SYRETHA MARIA DAILEY.

HARRY HERVEY DODGE.

LENA CHURCH GHEN.

GEORGE EDWARD HAMILTON.

GEORGE HOWARD.

MABELLE REED LINCOLN.

KATHERINE JOSEPHINE LYONS.

MARIA ELIZABETH MURPHY.

MAUDE IRVING PACKARD.

GERTRUDE AMELIA SMITH.

OUTLINE COURSE OF STUDY IN PHYSIOLOGY AND HYGIENE.

In the preparation of this course, the Superintendent of Easton is indebted to the State Board of Education and the Superintendent of the Brookline Public Schools.

FIRST YEAR.

Teach pupils to observe the correct position of the body while sitting, standing, and walking.

Each pupil should know his height and weight.

The practice of ascertaining height and weight should be continued through all grades.

Parts of Body.—Head, neck, trunk; arms and legs, right and left.

Special Topic. — The skin.

Characteristics,— Compare skin of man with that of other animals and plants.

Outer skin and inner skin; uses of each.

Importance of bathing and cleanliness.

The best time to bathe.

Impress upon children the proper care of teeth, nails, hair.

Tell the children short and simple Temperance stories.

SECOND YEAR.

Review the work of the preceding year.

Parts of Head.— Hair, to be properly combed and brushed, face, ears, care of the ear.

Parts of Face.— Forehead, temples, cheeks, eyes, nose, chin, lips, mouth, with careful instruction on the care of the teeth.

Parts of Eyes.— Balls, lids, lashes, brows.

Parts of Nose.— Care of nostrils.

Parts of Arm.— Shoulders, joints, upper arm, elbow, forearm, wrists, hand.

Parts of Hand.— Back, palm, thumb, fingers, joints.

Parts of Leg.— Hip, knee and ankle joints, thigh, calf, shin, foot.

Parts of Foot. — Sole, instep, heel, ball, arch, toes.

Tight and short shoes not to be used. Why ought the feet to be bathed often?

Special Topic. — The clothing.

Kinds, — depend upon climate and season.

Always to be clean and dry.

Teach children to be neat and tasteful in dress.

Continue Temperance stories.

THIRD YEAR.

Thorough review of work of preceding years, with recapitulation and extension of study on the external parts of the body.

Pupils should touch and name the parts in regular and irregular order.

Principal Parts. — Head, neck, trunk; upper limbs or arms, lower limbs, or legs, right and left.

Parts of the Head. — Crown, back, sides, hair, ears, face; parts of the face, — forehead, temples, cheeks, chin, eyes, brows, lids, lashes, nose, nostrils, bridge of the nose, mouth, lips.

Parts of the Neck. — Throat, nape, sides.

Parts of the Trunk. — Chest, — breast, back, shoulders, sides; abdomen, — waist, hips, sides.

Parts of the Arm. — Upper arm, elbow, forearm, wrist, hand; parts of the hand, — back, palm, thumb, fingers, knuckles, nails.

Parts of the Leg. — Thigh, knee, shin, calf, ankle, foot; parts of the foot, — instep, arch, heel, ball, toes, nails.

Uses of Parts. — Children should observe the direction and degree of the motion of the head and neck, trunk, arm, hand, fingers, leg and foot, and the principal use of each part.

Care of Parts. — Each child should be taught to take proper care of his hair, eyes, nose, mouth, teeth, hands, feet, and nails, Cleanliness of the body and of the clothing should be insisted upon daily before the school exercises are begun.

Special Topic. The Functions of the Skin.

Perspiration. — Kinds, amount, how it is carried on, and what it does.

Sweat glands. Why must the body be kept clean?

Kinds of baths.

Care after bathing.

Lessons on modifications of skin, — nails and hair.

Give talks to the children on the eye and seeing, the ear and hearing, the nose and smelling, the tongue and tasting, the skin and touching.

In these talks give incidental instruction in Temperance and Good Behavior.

FOURTH YEAR.

The Limbs and Wells of the Body. — Skin, muscle, tendon, blood vessels, nerves, fat, bones, joints, ligaments, cartilage.

Special Topic. — The breathing.

Teach meaning of the terms "expiration" and "inspiration," and make application in connection with the exercises in Reading and Gymnastics. How to ventilate a room, showing manner of admitting fresh and expelling foul air.

The Lungs. — Nature, use, form, size.

Like a sponge; illustrate.

Other organs of respiration.

Changes in air during breathing.

Changes in the blood during breathing.

Animal heat dependent on breathing.

Explain how plants breathe.

Exchange effected by the breathing of plants and animals.

Review lessons on the uses of clothing.

Avoid cold draughts.

Show importance of pure air, out-of-door exercise, and good ventilation.

Alcoholic Drinks, Stimulants, and Narcotics. — Pupils should be taught (1) to know what is right in the use and care of the body, and why; (2) to know what is wrong in the use and care of the body, particularly such wrong as may be near and threatening, and why; (3) to feel the obligation to do right in all that pertains to such use and care; and (4) steadily to choose the right, which is the main thing to be accomplished in studying hygiene. So far as the instruction relates to alcoholic drinks, stimulants, and narcotics, the great object is to develop and strengthen the purpose in children to do without them.

The necessary information about the evil effects of alcoholic drinks, stimulants, and narcotics may be obtained from such observations as the pupils have been led to make themselves from casual or unavoidable notice of such effects, and from judicious state-

ments made by the teacher about such effects as cannot be directly observed. Right choice in the pupil is determined somewhat by knowledge of what is right and what is wrong, somewhat by a desire to attain strong and upright manhood, somewhat by stories of noble and pure lives, and very largely by the consistent and winning example of those who are near to him, particularly by that of the earnest teacher.

Teach children how important it is to keep the body well and strong and sweet and beautiful, that the mind needs such a body, that we cannot hope to be comfortable and happy ourselves or agreeable to others without it, and that personal care in forming good habits and avoiding bad ones has much to do with the health of the body and, therefore, with successful living. If children thoughtlessly incline to make merry over the weakness or folly or misfortunes of persons visibly under the influence of alcohol, try to lead them into a truer and more serious attitude towards such things. Do this discreetly, privately, if necessary, so as to avoid the possibility of wounding any whom the advice is designed to protect.

FIFTH YEAR.

The internal organs: Tongue, teeth, pharynx, œsophagus, stomach, intestines, liver, heart, arteries, veins, larynx, wind-pipe, lungs, diaphragm, brain, etc.

Sources of Knowledge.—The body. At home, — beef tongue ; internal organs of a fowl, of a pig ; harslet ; kidneys. At school, — teeth procured from a dentist ; harslet of a calf or pig (possibly some of the digestive organs of a pig) ; pictures, etc.

Suggestions.—*Locate* each organ by placing the hand over it. *Group* organs into systems by tracing the passage of food, the flow of blood, the flow of air, etc. *Emphasize* uses and care of special organs. Teach to locate large arteries and veins ; to find the pulse and count the beats ; to stop bleeding from an artery or vein ; to put a piece of sticking plaster on a wound, and to cleanse and bandage a cut.

The teeth. Enamel, crown, root ; cutting teeth ; single and double teeth ; two sets,— number in each ; how to cleanse ; effects of hot drinks ; of biting hard substances ; of decomposing foods ; of tobacco ; function of the teeth. How is decay of teeth arrested ?

Special Topic. — The circulation.

The organs of circulation.

The heart: Its cavities and their uses. Teach general and pulmonary circulation.

Blood: Its nature and function. Show injurious effects of tight clothing; good effects of moderate exercise.

Alcoholic Drinks, Stimulants, and Narcotics. — Teach that alcoholic liquors injure and weaken the muscles so that one addicted to them can neither play nor work so well as he might without them; that they hurt the nerves and so interfere with what is done by them; that they make the blood poorer so that the body is not nourished so well. Cite kinds of business, duty, sport, for which people with drinking habits will not be employed. Impress the moral obligation that only those things should be taken into the system that make one strong and well.

Teach the children to shun tobacco in all its forms. "Smoking and chewing" are habits, expensive, unclean, and injurious to health.

SIXTH YEAR.

ANATOMY.

Bones and muscles of the body.

Compare structure of man with that of other animals. Composition of bones.

Difference between bones of children and those of adults. Uses of bones.

Muscles: How attached to the bones.

Illustration: Lean meat.

Action of muscles. Show how they are the organs of motion and expression.

Special Topic. — The health as affected by exercise and rest.

Impress upon the children that long, useful, and happy lives depend largely upon their good habits and the avoidance of every form of dissipation.

Alcoholic Drinks, Stimulants, and Narcotics. — Give simple accounts of fermentation and distillation, — enough to show that alcohol is not a natural product, but comes from changes in fruit juices after they have been pressed out, or in food substances after they have been mashed with water. Teach that alcohol, in whatever liquors found, is the same dangerous thing, variously threatening or harmful in its so-called moderate use, disastrous and even fatal in its excessive use, and in any form or degree of use unsafe

and treacherous in its trend towards creating an uncontrollable desire for more.

Teach that tobacco contains a poisonous substance called nicotine; that it frequently injures the throat, lungs, heart, and other organs; that it is harmful to all who use it, especially so to the young; and that the cigarette being extremely dangerous to health, its sale to children is forbidden by law.

SEVENTH YEAR.

Systematic and thorough review of work of fifth and sixth years.

Special Topic. — Digestion.

The digestive organs.

Functions of the teeth, salivary glands, liver, and pancreas.

Teach pupils to make clear statements of the whole process of digestion.

Principal constituents of animal and vegetable food.

Proper kinds of food and drink.

Circumstances affecting digestion.

Quality of food.

Quantity of food.

Condition of mind and body.

Eating between meals.

Tight clothing.

Teach moderation in eating and drinking, and give incidental lessons in Manners and Morals.

Alcoholic Drinks, Stimulants, and Narcotics. — Review and elaborate the teachings of the preceding years. Teach what a stimulant is, what a narcotic is, and what each may cause. Teach that alcohol, even if at first it behaves as a stimulant, is really a narcotic; that, unlike healthful food, it promotes neither strength nor vigor; that athletes in training are forbidden its use; that much of it partly paralyzes the muscles, so that one "talks thick," cannot control the movements of vision, is unsteady in hand and leg and unfitted for work, and that lack of confidence in one who drinks often debars him from holding responsible positions. Show that the natural appetite is a safer guide in eating than any artificially stimulated appetite, and that condiments, pungent and peppery substances, tea, coffee, and the like should be sparingly used, if at all, by children, however safe their moderate use may be for adults.

EIGHTH YEAR.

Special Topic.—The nervous system.

Illustrate by pictures and drawings. Use text-books, works of reference, charts, and models.

Show that health of nervous system depends upon fresh air, cleanliness, good food and clothing, proper amount of exercise, regular periods of rest, and the cultivation of moral habits.

Show that sleep is the great recuperative agency.

Continue scientific Temperance teaching, and point out the dangerous effects upon the nervous system of the use of alcoholic drinks and tobacco.

NINTH YEAR.

Review the work of the seventh and eighth years.

Teach pupils to make a comprehensive statement of the processes of nutrition,—digestion, absorption, circulation, assimilation.

Special Topic. — The senses.

Detailed study of the ear and eye. Teach the proper use and care of the eye.

Teach pupils to observe carefully with the eye and to listen intently with the ear.

Teach that eye and ear are the avenues to the mind within.

Seize every opportunity which this noble study affords to reinforce the teaching of *Morals and Manners*.

Alcoholic Drinks, Stimulants, and Narcotics.—Teach the evil effects of alcohol on the digestive system,—particularly on the stomach, the gastric juice, and the liver; on the circulatory system,—particularly on the blood, the blood vessels, and the heart; on the muscular system, as in preceding lessons; and on the nervous system,—particularly on the brain, in warping the judgment, blunting the moral sense, reducing the will power, and releasing such foolish, bad, or savage impulses as are usually kept in check by habits of sobriety. Teach some of the effects of tobacco upon the same systems. Show how alcohol and tobacco may affect the health, acuteness, and precision of the special organs of sense. Consider with the children why the Commonwealth of Massachusetts should make “special instruction as to the effect of alcoholic drinks, stimulants, and narcotics on the human system” mandatory in her schools.

SUMMARIZED REPORTS OF SPECIAL INSTRUCTION UNDER THE AUSPICES OF THE OAKES AMES BEQUEST.

THE KINDERGARTEN.

No department of our school system has been more successful than the kindergarten; and none has provided its members with a better training or conferred more lasting benefits. The attendance has materially increased, its average membership exceeding that of any previous year. The parents and friends have shown a true regard for its welfare by making frequent visits and by co-operating with the kindergartner to secure as prompt and regular attendance as the health of the little ones and the conditions of weather would permit.

The following excerpts are furnished by the kindergartner:—

“Mothers have a right to ask kindergartners to give a reason for the faith that is in them: to say, ‘Tell us actually and practically what the kindergarten is going to do for our children.’

“To give any simple and satisfactory statement of the purpose of the kindergarten is not easy for any kindergartner, on account of the comprehensiveness of the subject; for it is as broad as human nature; it is nothing more nor less than a thought and intention of God that we have to interpret.

“Every child has a threefold nature. He is body, mind, and soul. At home, during his early years, his body is the chief object of care, mind and soul being allowed to

develop pretty much as they will at first. In school the mind gets most of the attention, body and soul being largely left out of calculation.

"Now, if in the one child body, mind, and soul did not dwell together during life as an inseparable unity, the old way of caring for body at home, mind at school, and soul at Sunday-school would do very well and there would be no need of kindergartens; but he *has* this threefold nature, and as yet the kindergarten is the only educational institution which recognizes it and strives to educate it. Whatever the kindergartner gives a child, of song, story, work, or play, takes into account the active body, the unfolding mind, and the growing character of the soul.

"The child is not to learn simply that he may know, but that he may *do*, and through doing what is wise and right build up the character which is to make him what he *can be* in time and eternity. The kindergartner cares much more about making a child helpful and kind and considerate than about the number of mats he weaves, although the weaving of the mats is one means towards this very end. Her child-gardening does not consist in raising crops of paper chains, clay birds'-nests, colored mats, and sewing cards, but in bringing to flower growths of kindness, courtesy, industry, helpfulness, and unselfish action.

"To the kindergarten child, entrance into school life is but a step, for he has acquired habits of obedience, order, self-control, and industry. He has been taught something of the importance of punctual and regular attendance, or rather his mother has, if the kindergartner has done her duty, and he has learned to *work*. Aside from the work of school preparation done for a child by awakening and exercising all his faculties, a good kindergarten sends him into school life with clear ideas of form, color, number,

position, direction, and other qualities learned from objects. He has, moreover, an inclination to *try* and a power to *do* whatever work is put into his hands. His originality has been allowed to express itself and has grown thereby. He has learned to talk by talking, and so is able to express himself with some degree of clearness, and he has the joy of companionship with other children and learns from them the lessons of each for all and all for each, that are to develop into a practical brotherhood of man."

THE SEWING SCHOOL.

The sewing school closes the year with large classes and an excellent record of attendance. Two hundred and eleven girls have received instruction. A new and commodious sewing room has been provided which will enable the teachers to secure more satisfactory results. The following is a list of articles made during the year:—

174 aprons, 68 pillow-cases, 46 pairs of drawers, 85 towels, 9 yoke night-dresses, 2 picture scarfs, 3 bolster-cases, 6 napkins, 5 tray cloths hem-stitched, 11 handkerchiefs hemmed all round, 2 waists, 2 pairs of sleeves, 4 shirts, 3 skirts, 9 yards of fine hemming, 332 yards hemming for youngest pupils.

As these articles are all taken into the homes of those who make them, it will be easy to realize how very practical is this branch of manual training. It has also an educational, a refining, and a moral influence.

OUTLINE COURSE IN SEWING AS ARRANGED BY THE PRINCIPAL.

First Year.—B. Primary.

1. Thread the needle and make knot.
2. Hem strips of brown muslin.
3. Hem linen towels.
4. Practise in stitching and gatherings.
5. Make plain aprons.

Second Year. — A. Primary.

1. Continue making of plain aprons.
2. Make pillow-cases.
3. Make miscellaneous articles of plain sewing with material brought from home.

Third Year. — F. Grammar.

1. Continue making of pillow cases.
2. Hem napkins, fine handkerchiefs and table cloths.

Fourth Year. — E. Grammar.

1. Continue lessons in hemming.
2. Make underclothing and fine aprons.

Fifth Year. — D. Grammar.

1. Continue work along the same lines as in the preceding year.
2. Lessons in mending.

Sixth Year. — C. Grammar.

1. Make fine night dresses and skirts.
2. Advanced lessons in mending—including patching and darning.

Seventh Year. — B. Grammar.

1. Continue work along the same lines as in the preceding year.
2. Lessons in shirring.
3. Make edgings and ruffles.

Eighth Year. — A. Grammar.

1. Make buttonholes.
2. Practice in whipping ruffles.
3. Lessons in cutting out garments.
4. Fine darning—ravelling and filling.
5. Hem and feather stitching.
6. Knitting, embroidering, and marking

THE WORKSHOP.

For ten successive years, boys from the lowest class of the High School and from the three upper grades of the Grammar School have received instruction in wood-work.

Some good results were accomplished although the course pursued was somewhat desultory. The time has come for a fresh departure in the direction of progressive educational exercises. The best approved method of wood working is the *Sloyd*, which correlates the knowledge of color, form, and number, and observes the correct proportion between the thought in the mind, the drawing on paper, and the finished model in wood. A trained teacher must be secured to carry forward this work so indispensable in any wise scheme of education.

THE SCHOOL KITCHEN.

During the year 1894, seventy-two pupils have received lessons in cooking.

The pupils are interested in their work and the attendance has been very good.

The lessons are arranged so that pupils go step by step from the simple to the complex.

The cleaning and care of the kitchen is given especial consideration; also the best manner in which to derive the greatest nourishment from foods, and methods of cooking the cheaper parts of meat.

The principles of economy are shown as much as possible in the lessons.

OUTLINE COURSE IN COOKING AS ARRANGED BY THE PRINCIPAL.

First Year.

1. The making and care of a coal fire. Measurements and abbreviations used in cooking. Baked Potatoes.
2. Boiled Potatoes. Mashed Potatoes. Riced Potatoes. Potato Cakes.
3. Apple Tapioca Pudding. Cream Rice Pudding. Baked Apples.

4. Boiled Onions. White Sauce. Scalloped Onions.
5. Corn-starch Pudding. Corn-starch Moulds (plain and chocolate).
6. Hard and Soft Boiled Eggs. Dropped Eggs on Toast. Egg Vermicelli. Omelet.
7. Steamed Rice. Soft Custard.
8. Macaroni, with Tomato Sauce. Rice, with Cheese. Cheese Custard.
9. Oatmeal Mush. Steamed Apples. Lemon Jelly.
10. Boiled Mutton. Gravy. Drippings. Scalloped Mutton.
11. Soups. Croûtons. Baked Crackers, with Cheese.
12. Beef Stew. Dumplings. Cocoa.
13. Rolled Beef Steak. Lyonnaise Potatoes.
14. Oyster Stew. Apple Dumplings.
15. Fish Chowder. Stewed Prunes.
16. Baked Fish. Stuffing. Drawn Butter Sauce.
17. Fish Balls. Baking Powder Biscuit.
18. Griddle Cakes. Gingerbread.
19. Bread (mixing and baking). Pastry.
20. Bread Puddings.

Second Year.

1. Doughnuts. Cookies.
2. Cake.
3. Popovers. Coffee. Coffee Jelly.
4. Invalid Lesson.
5. To prepare a Lobster. Boiled Salad Dressing. To prepare Lettuce. Tea.
6. Scalloped Tomatoes. Apple Roll Pudding.
7. Casserole of Fish. Corn Meal Puffs.
8. Broiled Halibut. Sauce Tartare. Fried Flour Muffins.
9. Stuffed Potatoes. Rice Griddle Cakes.
10. Breaded Mutton Cutlets. Tomato Sauce. Squash Muffins.
11. Fruit Charlotte. Sponge Drops.
12. Fish à la Crème. Orange Cake. Frosting.
13. Candy.
14. Mock Bisque Soup. Fried Oysters. Ginger Snaps.
15. Roast Chicken. Brown Gravy. Cranberry Sauce.
16. Purée Green Peas. Sponge Cake.
17. Fried Fish Cutlets. Cold Cabinet Pudding. Whipped Cream.

18. Chocolate Pie. Scalloped Oysters.
19. Ice Cream.
20. Scalloped Apples. Lobster baked in the Shell.

INDUSTRIAL DRAWING.

Those who saw the exhibition of the pupils' work in drawing, held in the Ames Memorial Hall at the close of the school year, in June, have a better idea of what was accomplished in this department of study than a written report can reveal.

The exhibition on the walls was representative of the work from the Kindergarten through the High School. The drawings were chosen from the exercises given in the class-room during the year. In selecting these drawings, we aimed to have those representative of each class exercise, and, as far as possible, to have each child represented by his best drawing, while those who did the best work had several on exhibition.

On a table on the platform were placed entire class exercises in the different subjects. The greater part of the wall space was given to the Grammar and High School work, as the result work in the Primary grades has been largely constructive and had been given to the children to take home either at the close of the lesson or the term.

Miss M. L. Field, in charge of the Public School Class in the State Normal Art School, and Miss W. N. Dranger, supervisor of drawing in Chelsea, were present and complimented the work both as exhibited on the walls and as it ran in the class exercises.

In January, the State supervisor of drawing, Mr. Henry T. Bailey, visited our schools, examined the pupils and inspected the work. He expressed satisfaction with what had been accomplished. In the afternoon, he gave a

most interesting and inspiring address to the teachers, on "Drawing in its Relation to Nature Study."

In taking up the work this year the same general plan has been followed as in the year previous; a slight change has, however, been made in the order of study. Directly following the nature study, in the fall, we have taken the work in Model and Object Drawing in place of the Mechanical work. Our order this year will be Pictorial Drawing, Mechanical Drawing, and Decorative Drawing. The interest in the sketch-book continues, and it is gratifying to note the improvement shown both in choice of subject, composition and in the application of principles taught.

Considered as a whole, the work in drawing progresses most harmoniously; the teachers work with unabated enthusiasm, and the pupils show a constant improvement.

FINANCIAL STATEMENT.
